

DURATRAN KS FILM

THERMAL TRANSFER FILM LABELS

Honeywell's Duratran™ KS Film offers excellent performance in a wide range of challenging tracking applications. This label readily endures outdoor exposure to rain, snow, and ultraviolet light for up to 6 months.

APPLICATIONS

Asset labels	Returnable totes
Lawn and garden equipment	Rework tracking
Product labeling	Wire harness labeling
Rack/Bin/Shelf labeling	

BETTER TOGETHER

Co-engineered printers and supplies ensure consistent print quality and performance

Thermal transfer printability allows on-demand generation of durable labels, eliminating high cost and inventory obsolescence associated with preprinting

When Honeywell supplies are used exclusively with Honeywell printers, the Free Printhead Replacement Program offers significant cost savings

FEATURES AND BENEFITS | PERMANENT ADHESIVE

Outdoor
6+ months

Min. App. Temp. 25°F
Service Temp.
-75° to 200°F

Medium Chemical
Resistance

Medium Abrasion
Resistance
