

Nationwide Barcode Repair You Can Trust – Fast, Reliable & Affordable

When your barcode equipment fails, it can disrupt your entire operation. That's why businesses across the country trust Advanced Automation—one of the nation's most reliable, responsive, and affordable barcode equipment repair providers. Whether you're facing cracked screens, malfunctioning triggers, or printing defects like streaks and lines, our expert technicians are ready to restore your scanners, mobile computers, and printers to peak performance. We prioritize fast, efficient service at competitive prices, ensuring minimal downtime and maximum productivity. Rely on Advanced Automation to keep your equipment running seamlessly, so you can stay focused on what matters most—your business.

Breathing Life back into Barcoding Equipment for over 25 Years!

Upgrading your Barcoding Equipment? Trade-In Today!

Save BIG when you trade in your old barcoding devices and purchase a new printer, mobile computer, or barcode scanner. Let us tell you what it's worth!

Authorized Service & Repair Solutions You Can Trust

On-Site & Depot Repair

Choose between on-site service for minimal disruption or depot repair for a full service solution. We ensure the fastest and most efficient repair turnaround to get your equipment back in action.

Flat-Rate Repair

Enjoy predictable and affordable pricing with our flat-rate repair services. No hidden costs—just reliable repairs that keep your budget in check.

Service Agreements

Protect your equipment investment with a service agreement. Gain peace of mind with ongoing maintenance and priority repairs to ensure your devices stay reliable.

In-House Parts Supply

We stock printheads, platens, batteries, and more in-house. This ensures faster repairs with no delays waiting for parts from external suppliers.
